

SUSHMITA DUBEY

sushmitadubey2502@gmail.com | +91 9118546219 | linkedin.com/in/sushmitadubey | github.com/sushmita25dubey

PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in full-stack web development (MERN), AI/LLM integration, and applied computer vision. Proficient in Java, Python, JavaScript, React.js, Node.js, Express.js, MongoDB, Firebase, and Supabase, with a strong foundation in data structures, algorithms, and core CS fundamentals. Proven ability to independently design, build, and ship end-to-end applications, with hands-on experience integrating generative AI APIs (Gemini, OpenAI) into production-style projects.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML5, CSS3

Frontend: React.js, Tailwind CSS, HTML5, CSS3, Responsive Web Design

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, Firebase, Supabase

AI / ML: Prompt Engineering, Gemini API, OpenAI API, OpenCV, MediaPipe

Tools: Git, GitHub, VS Code, Netlify, Vercel, Google Colab

PROFESSIONAL EXPERIENCE

Google Prompt Wars Challenge

Ongoing

Participant – Single-File Web Application Competition (HTML/CSS/JS, sub-1MB constraint)

- Engineered **SmartEvent AI Navigator** (Challenge 1), a single-file web application integrating Google Services under strict size and performance constraints, meeting all submission requirements for accessibility and efficiency.
- Built **VoteGuide AI** (Challenge 2), an election-education platform combining AI-assisted content delivery with accessible, responsive design, while adhering to a sub-1MB file-size limit.
- Applied a structured, iterative development workflow to independently plan, code, and test both submissions, targeting 90%+ evaluation scores across efficiency, accessibility, and Google Services integration criteria.

Web Development Intern

Adverk (Virtual)

One-Month Virtual Internship

- Completed a one-month virtual internship focused on web development, gaining hands-on experience with industry practices and workflows.

Academic Representative, B.Tech CSE

Kashi Institute of Technology

- Serve as the elected liaison between faculty and the third-year CSE cohort, coordinating academic scheduling, resolving student concerns, and communicating departmental updates; previously served as Class Representative in first year.

Open Source Contributor

Girl Spring of Code

- Contributed to open-source repositories as part of the Girl Spring of Code initiative, collaborating with distributed teams using Git-based workflows.

PROJECTS

Sushi Desktop Companion (GitHub)

Electron.js, JavaScript, HTML, CSS

- Built a cross-platform desktop companion using a transparent, frameless Electron window, with interactive character behaviors and dynamic speech bubbles to simulate real-time companion interactivity.

Hand Gesture Virtual Mouse & Game Controller (GitHub)

Python, OpenCV, MediaPipe, NumPy, PyAutoGUI

- Built a touchless input system using MediaPipe and OpenCV that translates real-time hand-tracking landmarks into mouse cursor movement and game control commands for low-latency human-computer interaction.

Personal Portfolio Website (GitHub)

React.js, Tailwind CSS, JavaScript

- Designed and shipped a fully responsive developer portfolio integrating direct links to GitHub, LinkedIn, and a downloadable resume to streamline recruiter access to key information.

EDUCATION

Kashi Institute of Technology, Varanasi

2024 – 2028

Bachelor of Technology (B.Tech), Computer Science Engineering

CERTIFICATIONS & ACHIEVEMENTS

- Certifications:** Programming in Python (SWAYAM)
- Workshops:** AI Workshop, IIT (BHU) – Prompt Engineering | NLP & ML Workshop, Techgyan – Teachable Machines, Kaggle
- Activities:** Hackathon participant (Gemini AI wrapper, travel-itinerary planning) | Two-time gold medalist in Kabaddi at the college level.
